

UNIVERSITY OF SOUTH CAROLINA

BUDGET DOCUMENT

Fiscal Year 2009-2010

Presented to the Board of Trustees

NOTE: This document is based on the current information for the proposed FY2010 budget as recommended to the Board of Trustees on June 11 and June 26, 2009. During the budget cycle, changes will occur based on a number of factors including post-closing accounting entries for FY2009 affecting carryforward amounts, revenue revisions, new plans for programs, adjustments for enrollments, and numerous other factors. Periodic reports will be provided to the Board of Trustees as the fiscal year proceeds and budgetary changes are made.

EXECUTIVE SUMMARY

The University of South Carolina's budget process is a comprehensive planning effort representative of the vision of the University to provide research, teaching, and service for the citizens of the State of South Carolina. The process involves participation beginning at the department level and reaching out to all campuses as we develop budgets which will reflect the investments identified to significantly enhance our academic reputation, benefit our students and contribute to the economic and societal health of our state.

USC COLUMBIA

State Appropriations All higher education institutions in South Carolina experienced mid-year reductions throughout FY2009. For the Columbia campus and the School of Medicine, total reductions in the fiscal year were \$40,520,307. The campuses began the FY2009 fiscal year with a cut of \$4,916,033 bringing total reductions since 2008 to \$45,436,340. To begin the FY2010 fiscal year, base appropriations will remain at the current funding level. The School of Medicine will receive a permanent transfer from DHHS totaling \$800,000 for the Child Abuse and Neglect program. The School of Medicine will also receive non-recurring funding of \$1.8M for the rural health clinics.

Federal Stimulus funding, part of the State Fiscal Stabilization Fund Program in the American Recovery and Reinvestment Act (A.R.R.A), if available, is expected to be \$23,945,887 for USC Columbia and the School of Medicine. These are non-recurring funds available for a period of two years.

Pay Package For FY2010, there is no state pay package. There is no increase in employer contributions for health insurance as of January 1, 2010. A minimal increase in the South Carolina Retirement System employer contribution is expected for retiree health insurance, but there is no increase to the regular rate. The impact of the minimum wage increase in July is minimal. There is no additional state funding for any personnel items.

Tuition and Fee Increase Full-Time Resident Undergraduate: Tuition and Fees increase of \$159 per semester
 Full-Time Resident Graduate: Tuition and Fees increase of \$176 per semester
 Full-Time Resident Medical Student: Tuition and Fees increase of \$1,226 per semester
 Full-Time Resident Law Student: Tuition and Fees increase of \$593 per semester

Budget Priorities The student tuition and fee increases allow USC to fully fund the required increases in utilities, provide inflationary funding for library materials, and cover the increased cost of disposal of hazardous materials. Funds totaling \$1,250,000 will support the sixth year of the Faculty Excellence Initiative. The allocation is reduced from prior years due to the extraordinary budget pressures faced for FY2009 and FY2010. Tuition funds will also address strategic priorities including an increase to the undergraduate student fee waivers, support for the fourth year of the facilities funding plan, operating support for Finance, Legal and the Board of Trustees offices and additional support for Student Affairs programs including federal direct lending, international student compliance and advising. The increased student activities fee of \$4 per semester will provide funding for operating costs.

Impact of Enrollment The Fall 2009 freshman class is projected to be in the 4000 student range, a slight increase over the prior year's class. Total headcount undergraduate enrollment in Fall 2008 was 19,765, a five percent increase over the prior year. Total Columbia and School of Medicine headcount enrollment was 27,488. Transfer students accepted for the Spring 2010 term may impact total enrollment and tuition and fee numbers.

Federal Stimulus funding is not included in the annual operating budget for any USC Campus. Requests for stimulus funding will be solicited from the Columbia campus units and system campuses following adoption of the annual operating budget. The expectation and guidance is that stimulus funds be used for special non-recurring initiatives that address strategic priorities under Focus Carolina. Many of the details and possible restrictions are not yet known, but the University will comply with the intent of the stimulus funding law and report as required to the state and federal government. The President and University Administration will review and approve stimulus funding requests and provide periodic summaries of stimulus funding to the Board of Trustees.

Current Funds – Economic resources both unrestricted and restricted available to support the general operations of the University in carrying out its primary mission of instruction, research, and public service.

Unrestricted Funds – Current fund resources received by an institution that have no limitations or stipulations placed on them by external agencies or donors, and that have not been set aside for loans, endowments, or plant. These resources are normally derived from state appropriations, student fees, institutional revenues, and auxiliary operations.

Restricted Funds – Current fund resources received by an institution that have limitations or stipulations placed on their use by external agencies or donors. These resources are normally derived from gifts, grants, and contracts and used predominantly for research and student scholarship activities.

Activities Classified by Current Fund Group

Fund Group	Activities Included in Group

Auxiliary Enterprises – Self-supporting activities that exist to furnish goods and services to students, faculty, or staff, and charge a fee directly related to, although not necessarily equal to, the cost of the goods or services. These activities include both unrestricted and restricted expenses normally categorized as student health, student housing, food service, bookstore, vending and concessions, athletics, parking, and other services.

IV. FUND BALANCE

Fund Balance – The unexpended resources at the end of any given fiscal year available to support non-recurring activities in the new year.

APPENDIX 2
UNIVERSITY OF SOUTH CAROLINA
OVERVIEW OF STATE BUDGET PROCESS

The state or external budget planning process involves the Commission on Higher Education, the Governor, and the General Assembly.

The state budget process, outlined in Figure 1, begins with a state agency's submission of budget requests to the Governor. These requests include the "base budget," special program requests and the Agency Activity Inventory. In the case of higher education, public universities and colleges submit their requests through the Commission on Higher Education (CHE), which in turn submits a request to the Governor on behalf of all institutions. CHE does not have the authority to change the requests submitted by the institutions, but the CHE must recommend funding levels for special program requests and set priorities for capital projects before submitting them. Excerpts from the CHE's state law follow:

SECTION 59-103-35. Submission of budget; new and existing programs.

All public institutions of higher learning shall submit annual budget requests to the commission in the manner set forth in this section. ... The budget request for the public higher education system shall be submitted by the commission to the Governor and appropriate standing committees of the General Assembly in conjunction with the preparation of the annual general appropriations act for the applicable year. ... No new program may be undertaken by any public institution of higher education without the approval of the commission. The provisions of this chapter apply to all college parallel, transferable, and associate degree programs of technical and comprehensive education institutions. All other programs and offerings of technical and comprehensive education institutions are excluded from this chapter. [Act 359 of 1996]

CHE Budget Request and Performance Funding. The law requires that all higher education funding, except funds specifically earmarked by the General Assembly, be based on the performance-based funding methodology developed by the CHE. One of the duties imposed on the CHE by this act is the following:

- (b) base the higher education funding formula in part on the achievement of the standards set for these performance indicators including base-line funding for institutions meeting the standards of achievement, incentive funding for institutions exceeding the standards of achievement, and reductions in funding for institutions which do not meet the standards of achievement...

In its request to the General Assembly, the CHE considers statewide needs of higher education. Also, the Commission solicits and considers capital and earmarked "below-the-line" budget request items from all institutions.

Establishment of Funding Base. There are two major components of the CHE's overall Performance Funding plan. The first component, the Mission Resource Requirements model (MRR), is the estimate of the fiscal needs of an institution. This computation establishes a base funding need to which performance ratings are applied. The second component is the determination of a funding percentage based on institutional ratings on indicators of performance, accomplished through the Resource Allocation Plan that actually determines institutional funding levels.

As indicated in Figure 1, the fiscal year 2009-2010 budget process began in the fall of 2008 with the University's submission of required data to the CHE for computation of the Mission Resource Requirements (MRR) for higher education institutions. The data submitted to the CHE include the following:

- Student Credit Hours by Discipline
- Number of Full Time Equivalent Students (Student FTEs)
- Number of Full Time Equivalent Faculty (Faculty FTEs)
- Expenditures by Major Area - Instruction, Research, Public Service, Libraries, Student Services, Plant Operation and Maintenance, and Administration
- Facilities Data and Other Information to Support the MRR Computation
- Revenue Generated by the Institution through Tuition and Other Fees.

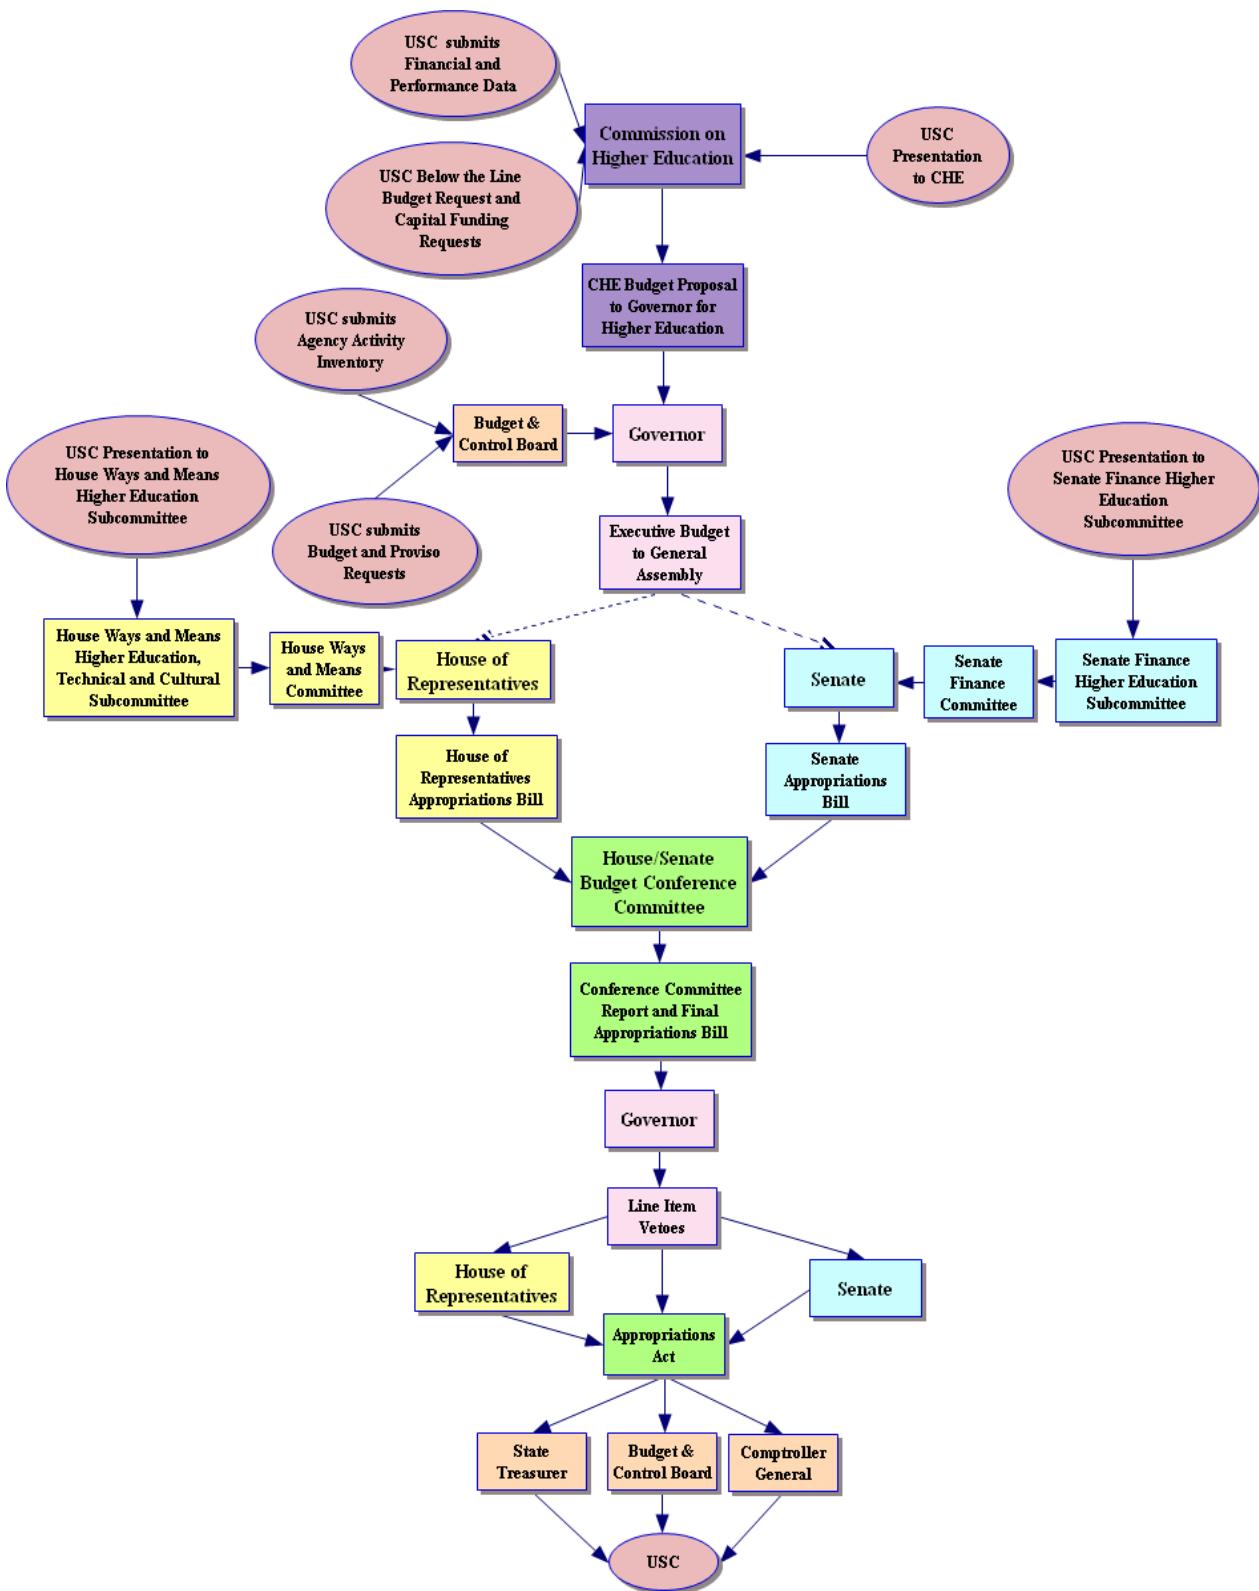

These and other data elements contribute to computation of the Mission Resource Requirement, which is intended to define the total required costs of operating each of the state's 33 institutions. Peer national and regional cost data are examined to help compute the required costs of various program areas, instruction, research, public service, facility operation and maintenance, student support, and other areas. After computing the operational costs, the expected student fee revenue must be deducted. According to the CHE: "The total Education and General (E&G) cost amount must be reduced by these student revenues in order to determine the amount of support required from the State."

E&G costs exclude auxiliary enterprise activities such as housing, food service, and athletics, since these activities are self-supporting. The S. C. Commission on Higher Education has used the MRR to determine operating funds of the institutions and in the development of its funding request presented to the General Assembly. Due to the severe budgetary constraints faced by our state in the last decade, the level of funding from the General Assembly has not supported the recommendations of the MRR. To start FY2009, the percentage of appropriations compared to the MRR was 65.5% for the USC Columbia campus. Following the series of budget reductions, the funding appropriated was 50.45% by the end of the 2009 fiscal year.

In addition to the CHE submission, all higher education institutions are required to participate in developing an agency activity inventory database to assist in the development of the budget. This process has been in place for three full years and is coordinated by the Budget and Control Board's Office of State Budget with the Governor's Office. The Governor's aim was to build an executive budget "based on clearly articulated statewide goals" and to concentrate on outcomes and results. Agencies, including institutions of higher learning, are expected to analyze programs and assess value of the program based on the associated costs. As a companion to the agency activity inventory, each year with the submission of the annual accountability report, the University documents actual financial performance in this format.

As shown in Figure 1, the CHE's recommendations provide input for the Governor and the General Assembly as they consider budget priorities for the upcoming year. If the House and the Senate approve differing versions of the appropriations bill, a conference committee works out the differences and presents a compromise package back to the General Assembly. Following ratification of the conference committee report, the bills then go to the Governor for signature, who may exercise line-item vetoes, which the Legislature may override by a two-thirds vote.

APPENDIX 4

UNIVERSITY OF SOUTH CAROLINA OVERVIEW OF INTERNAL BUDGET PROCESS

The University of South Carolina's budget process is a comprehensive planning effort representative of the vision of the University to provide research, teaching, and service for the citizens of the State of South Carolina. The process involves participation beginning at the department level and reaching out to all campuses to develop budgets which will reflect the investments identified to significantly enhance the academic reputation, benefit students and contribute to the economic and societal health of the State.

The Board of Trustees budget document contains the University's total current funds sources and uses for the prior year, projected for the current year, and proposed for the next fiscal year. For FY 2010, a preliminary estimate for the following fiscal year (FY 2011) is included. These budgets are comprised of both unrestricted and restricted funds for each campus of the University of South Carolina system. The University's "A" Fund budget is considered the operating budget of the University and is the focus of the budget presentation and discussion. "A" fund sources are primarily tuition and fee revenues and state appropriations. Across the University system, "A" funds account for 54% of all funds.

Auxiliary units exist primarily to furnish services to students, faculty and staff. Examples of auxiliary funds are the student health center, housing, parking, and athletics. By state law, auxiliary operations must cover their costs. The budgets for restricted funds are determined by estimating current year activity and projecting possible grant activity in future years.

The internal University budget process for the Columbia Campus for Fiscal Year 2009-2010 began in the late Fall of 2008 with requests from the President and Provost for all University units to prepare strategic plan documents – Blueprints for Academic Excellence and Blueprints for Service Excellence. The budget development process continued in January with a review of the tuition and fee revenue projected and requests for new funding initiatives. Budget development for FY2010 coincided with ongoing budget projections and revisions due to state appropriations reductions throughout the 2009 fiscal year. Budget cuts for the Columbia campus were not implemented across the board, but strategically allocated.

Throughout the spring, meetings are conducted to determine strategic priorities and develop budget assumptions. The Provost, Associate Provost, Vice President for Research and Health Sciences and the Budget Director met with each academic dean and staff to discuss current and future funding needs included in the Blueprints. Again for FY2010 budget development, each academic unit prepared a five-year budget model that includes historical funding and allows each unit to project funding needs for the current year and for five additional years. The President, Chief Financial Officer and Provost then met with each division to review tuition and fee requests and determine budget priorities. Meetings were also held with the Chancellors of the senior campuses and Deans of the regional campuses. Included in the President's meetings were the Chair of the Faculty Senate and Chair of the Faculty Budget Committee as well as the President of the Student Government Association or their designee. The Budget Update Group met each week since the fall and throughout the spring to refine assumptions, review budget requests and develop the final recommendation for the President.

Once the budget is adopted, it is an important tool for the University staff in accomplishing the objectives and goals established for the academic year. The budget is an estimate of proposed expenditures and the means of financing expenditures for the fiscal year.

One of the key actions taken by the Board of Trustees is the approval of the fee schedule for the fiscal year, as described in the statute establishing the University:

SECTION 59-117-40. Board constituted body corporate and politic powers. The board of trustees of the University of South Carolina is and is hereby constituted a body corporate and politic, in deed and in law under the name of the University of South Carolina. Such corporation has the following powers: ... (9) To fix tuition fees and other charges for students attending the University...

The Board's budget approval is based on its power: "to adopt such measures and make such regulations as may in the discretion of the board of trustees be necessary for the proper operation of the University" (paragraph 14, Section 59-117-40). As indicated in the "Delegation of Authority" statement in Appendix 8, the budgets approved are by their very nature estimates that will vary with changing circumstances during the fiscal year.

Value Centered Management = University Budget

For FY 2010, the Columbia campus continues budgeting by the concepts of "value centered management" in the development of "A" Fund operating budgets. This action was recommended by the Strategic Directions and Initiatives (SDI) Committee and implemented in FY 2003. Each year, the University's annual budget development process refines the initial assumptions by adapting the model so that the needs of the institution are met. Significant revisions took place in FY 2008 with a change to the allocation factors that determine each academic unit's tax. The base tax is now calculated in late fall or very early spring and distributed to academic units before the Blueprints for Academic Excellence are complete. In September, the tax is recalculated for Board of Trustees approved initiatives and the pay package. At the same time as the tax recalculation, additions or deductions to state funding are spread to units and the Board approved tuition increase is calculated and entered into the financial system. The Budget Office conducts meetings with each academic unit to detail each budgetary change from the prior year.

As in the previous five years, all costs and income attributable to each academic unit are assigned to the unit. Costs include the unit's existing programmatic budgets, as well as its share of the operating funds needed to support the University's service functions. Income includes the unit's existing departmental revenues, summer school revenues, transfers, carry-forward balances, and the tuition revenue generated from the student credit hours taught by the unit. State appropriations were allocated primarily to academic units upon creation of the budget model and in FY 2008, all state appropriations were shifted to the academic units. For the state appropriations cuts in FY 2009, state funds were cut from academic units, but the tax paid by those units was also lowered to account for cuts to the service units.

Service unit costs are assessed to academic units based on a formula and/or the application of direct charges. Formula based assessments resemble a tax and once determined are fixed and must be paid. Direct charges are payments for services that can be controlled through usage.

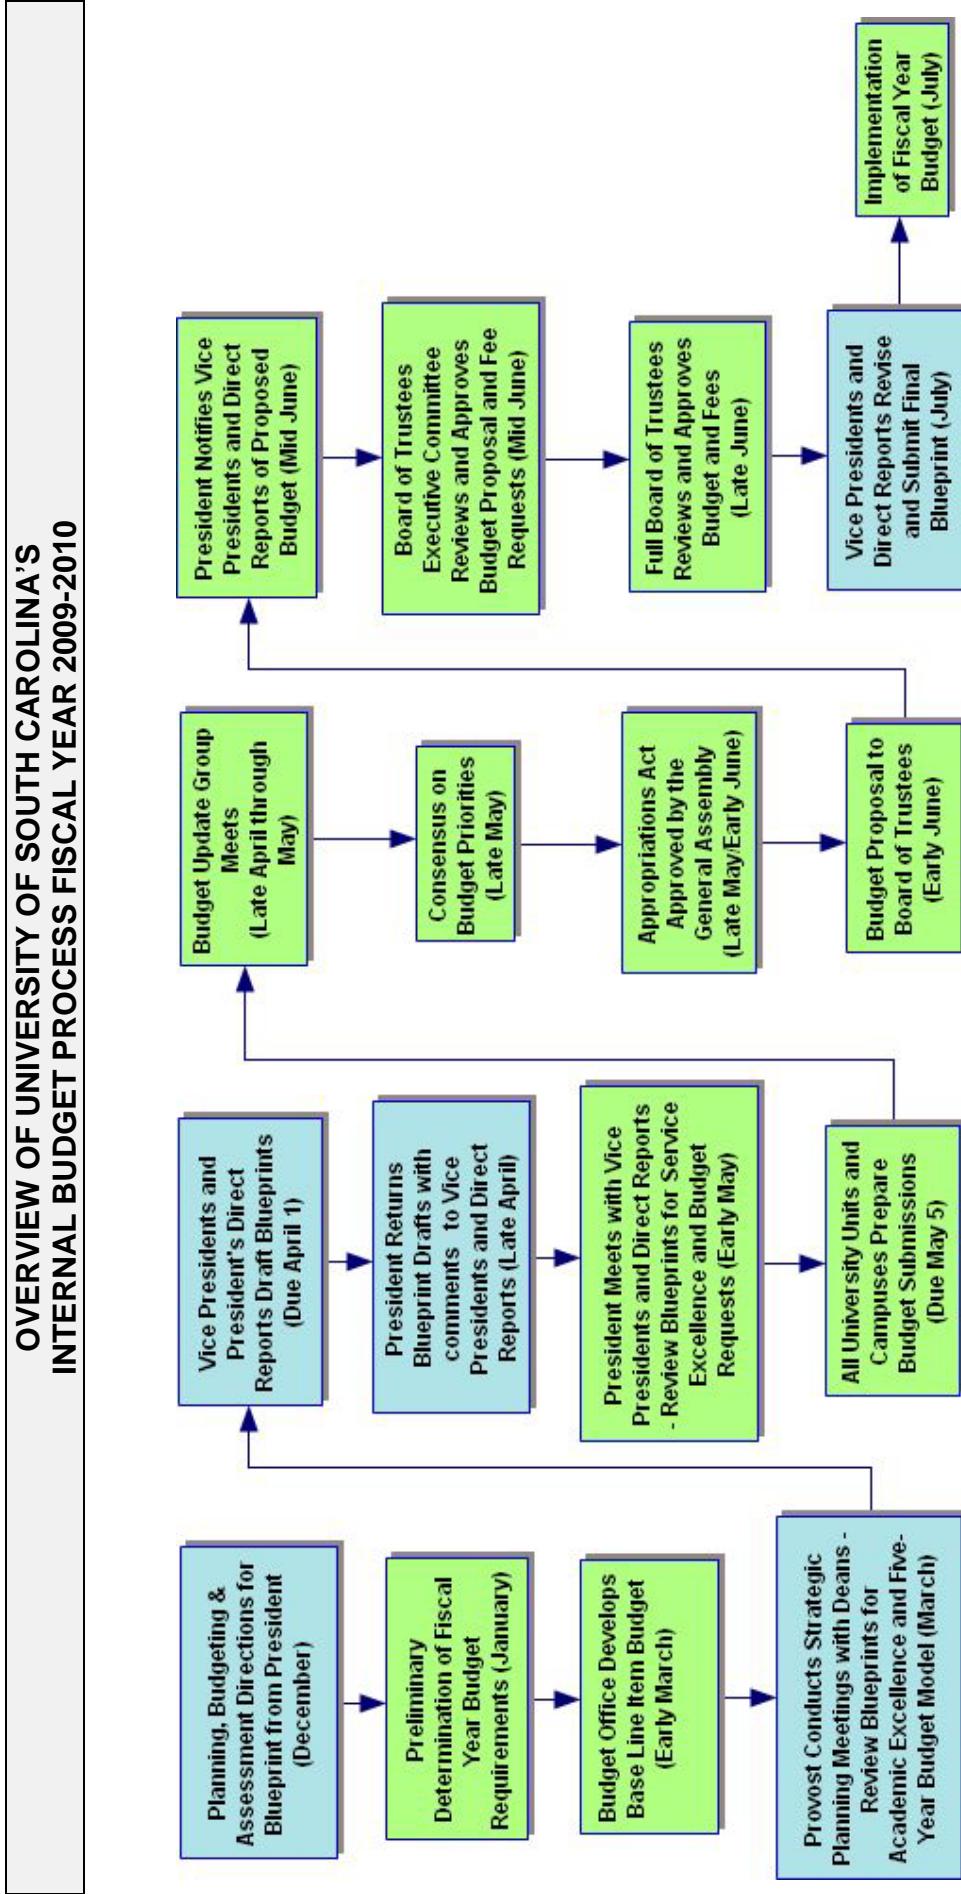

The section that follows provides an overview of the activities that occurred to generate a FY 2010 "A" fund operating budget. The activities include communication and training, realigning base budgets, and requesting new funding, distributing state budget cuts and reallocations and finalizing the budget.

APPENDIX 5

UNIVERSITY OF SOUTH CAROLINA COLUMBIA CAMPUS SUMMARY OF NEW AND CONTINUING FUNDING RECOMMENDATIONS FOR FY2010

Required Cost Increases

Utilities Increase Recurring \$ 1,779,788
 Additional funds are needed to meet current utility rate and consumption increases for electricity. No additional cost increases beyond the existing budgets for natural gas and water are anticipated for FY10. During FY09 coal prices increased, and as a result SCE&G was granted a mid-period electric rate increase by the SC Public Service Commission. This increase was effective in November 2008 and was 10.6%. Another .39% rate increase was granted in March 2009 related to utility construction. SCE&G has requested two additional electric rate increases scheduled for May 2009 @ 6.44% and for October 2009 @ 2.8%. In total, these electric rate increases total 20.3%. Based on the timing of these electric rate increases and the current budget, the net increase to USC for FY10 is approximately 15.5%.

Increase in 4% Fee Waivers Recurring \$ 772,414
 The State of South Carolina provides higher education the authority to waive up to 4% of tuition for undergraduate students. Additional funds are required to cover the increase in fee waivers over the prior year.

Previous Commitments

Faculty Excellence Initiative Recurring \$ 1,250,000
 USC is committed to increasing full-time faculty by 250 over a six-year period. In order to support the component of this growth due to the Faculty Excellence Initiative, the Office of the Provost provides recurring funding for salary and fringe benefits support to academic units. FY10 marks year 6 in a 6-year plan; however, the previous allocation of \$750,000 in FY09 was reduced from the annual \$2M allocation due to extraordinary budget pressures.

Facility Services - Staffing (Year 4 of 5) Recurring \$ 500,000
 Resources are requested to address wage levels, equity, training and additional staffing needs within the Facility Services Unit. This request is year four of a proposed 5-year allocation plan for the infusion of base operating resources and is based on recent organizational review, peer comparisons and benchmarking against industry standards for the upkeep of facilities. New resources will enable the unit to implement, in stages, a certified apprenticeship training program, address wage equity issues and increase the number of service personnel who deliver support services to the campus.

Other Strategic Priorities

University Libraries Recurring \$ 340,000
 The University Libraries must maintain up-to-date collections of academic journals and books. Without additional funding, the Library would have to reduce the number of academic resources available to faculty, students, and researchers.

Academic Enhancement Recurring \$ 1,365,000
 The Office of the Provost has significant outstanding commitments and additional planned or expected commitments of support directly to deans. The commitments were made originally as part of dean recruitments with the expectation of additional funding becoming available over time.

Undergraduate Research Recurring \$ 110,000
 The undergraduate research program at USC spans all disciplines, colleges and departments. Discovery Day, the Magellan Scholars, and the Voyager programs have been met with widespread success. The Office of Research has funded this program with \$1,580,000 over 4 years from indirect costs generated by grants. This undergraduate research initiative does not generate any indirect costs. This funding will cover personnel and office expenditures only and is reduced from the \$500,000 request.

Federal Direct Lending Recurring \$ 125,144
Non-Recurring \$ 6,000

President Obama has proposed elimination of the Federal Family Education Loan (FFEL) Program by award year 2010-2011 requiring a change to Federal Direct Lending. This unfunded federal mandate will require transition to educate and assist students. Additional staffing in Financial Aid is required.

International Student Compliance	Recurring	\$ 49,055
	Non-Recurring	\$ 6,400

Changes in the computer system required by the Department of Homeland Security for reporting international student information will be introduced in Summer 2009. These changes will be accompanied by regulatory changes, which in addition to changes enacted by DHS in 2008, have and will continue to increase data management workload for International Programs. The South Carolina immigration regulations, passed in 2008, increased the requirements for handling data including review of permanent residents and other foreigners on non-student visas.

Cross Campus Advising	Recurring	\$ 62,941
	Non-Recurring	\$ 7,600

As students and parents become increasingly concerned about completing a degree in four years for financial reasons, the importance of effective advising for students is valuable for the University. This proposal will allow for one full time advisor and related support for phase I of the development of a comprehensive advising center. This center will provide a mechanism to assist students who move between colleges or are undecided. The center will be a significant retention tool.

Career Center – Pre-Employment Services	Recurring	\$ 12,860
--	------------------	-----------

Total request was \$165,757. This initiative will establish an experiential education program that will result in increased internship, co-op and job-shadowing opportunities for students. It will serve as a catalyst for new partnerships between employers and areas such as faculty research and service, alumni and development. When fully funded, this initiative will create a career counselor to student contact ratio that will address the increased student need for services. The FY10 budget will not allow the initiative to be fully funded.

Research Computing	Recurring	\$ 150,000
---------------------------	------------------	------------

The initiative will provide initial funding to establish a Center for Research Computing. Creating this center will yield the following benefits: enhance the University's research agenda; enable computing-related collaborations across disciplines; foster professional and efficient system administration, user support and training; coordinate the acquisition and use of resources for computational hardware, software and data storage; and leverage University investment by seeking additional outside funding.

Law Enforcement and Safety – Enhanced Emergency Response	Recurring	\$ 175,000
---	------------------	------------

The police officers for the University consistently work in excess of 160 hours each month, thereby earning overtime pay or compensatory leave. There exists a resource already hired and trained that can provide services if funds were available to reduce the use of compensatory leave. By paying overtime, there will be a significantly enhanced visibility of officers and an increased level of safety for the campus. The overtime police officers work is caused by preparing reports, court appearances, holiday work and training.

Law Enforcement and Safety – Emergency Communications	Recurring	\$ 75,000
--	------------------	-----------

The Division is responsible for the operating and funding for all call boxes and other emergency phones on campus. The operation of the existing system has been funded with non-recurring funds for the past several years. Without recurring funding, it would be necessary to reduce the scope and availability of emergency communication devices around campus. The emergency communication system is a vital tool that enables individuals to summon assistance. These systems are used for medical and law enforcement assistance.

Environmental Health and Safety – Hazardous Waste Disposal	Recurring	\$ 40,000
---	------------------	-----------

The current five year hazardous waste contract is up for renewal. Pricing discussions with hazardous waste vendors indicate that the market rate for hazardous waste vendor services have increased by approximately 15% over the pricing agreed upon in the prior five year contract.

Environmental Health and Safety – Pandemic Preparation	Recurring	\$ 60,000
---	------------------	-----------

EH&S and the Student Health Center have the responsibility for preparing for emergencies for the campus. This spring more than \$20,000 was spent in preparing for this swine flu outbreak. This funding will allow for purchase of medicine, respirators, disinfectants and other supplies which are only a minimal amount of the supplies needed during a pandemic.

Environmental Health and Safety – Liquid Scintillation Center	Non-Recurring	\$ 30,000
--	----------------------	-----------

The Radiation Safety Office has a liquid scintillation counter that is 21 years old and near the end of its operating life. The parts and computer modules for the unit are becoming scarce. This equipment is an essential radiation counting tool.

Facility Services – Band/Dance Hall and String Project O & M	Recurring	\$ 62,200
---	------------------	-----------

New base operating dollars are needed to support the operation of the new Band and Dance Hall that opened in Spring 2009. Recurring funding of \$100,027 was allocated in FY09.

Facility Services – Climate Action Plan & Energy Management Plan Non-Recurring \$ 200,000
 Establish a project to hire a third party expert in carbon admission to determine the carbon footprint for the USC system and develop an initial Energy Management Plan for the Columbia campus.

Board of Trustees Recurring \$ 56,000
 Additional funding is needed to support Commencement activities and the Board of Trustee meetings.

Finance Recurring \$ 442,630
 Additional funding is needed to support new positions in the Finance Division and address compliance issues. Funding is requested to fill five positions to address chronic understaffing and over-reliance on temporary and retired personnel. New staffing will allow greater emphasis on the analysis of financial data. SACS requirements will increase the annual cost of the external audit.

Office of the General Counsel Recurring \$ 150,000
 The Office of the General Counsel provides a range of legal services to the executive, academic and administrative areas of the University system. The demands for legal services have increased in recent years. This funding will allow the expansion of the legal staff to better accommodate the University system needs.

Mandated Fee Distributions

Student Activities Recurring \$ 161,968
 An increase of \$4 per full time student per semester will support services and activities provided by the Department of Student Life for all students. The additional funds will help cover minimum wage increases over the last three years for the several hundred student employees who work in Student Life facilities.

Summary

Academic Programs and Services	\$ 3,065,000
Academic Support and Student Affairs Programs	\$ 1,172,414
General Institutional Costs and Central Operations	\$ 3,340,618
Mandated Fee Distributions	\$ 161,968
Total Recurring Funds from Tuition	\$ 7,740,000
Academic Support and Student Affairs Programs	\$ 20,000
General Institutional Costs and Central Operations	\$ 230,000
Total Non-Recurring Funds	\$ 250,000

Other Funds

In FY09, in addition to new and continuing funding recommendations made from the tuition increase, the University reallocated recurring funding of \$1.5M across service units and \$2.5M across academic units. State budget reductions of more than \$35M for Columbia this fiscal year were not directed to units across-the-board, but based on strategic decisions which resulted in a comprehensive reallocation of permanent funding. One time funding resulting from budget cuts totaling \$6,950,000 was allocated to Academic Affairs and Research for addressing academic needs including the academic health center partnership with the Greenville Hospital System and faculty start-up costs. Non-recurring funds were also distributed to the presidential transition account and to Legal.

In FY09, the Board of Trustees authorized use of \$750,000 of the endowment income generated by the research quasi endowment and the continued use of endowment earnings as an annual component of the Research budget. Additional funding will not be pulled from that account for the new fiscal year. The Office of Research and Health Sciences will use \$2,500,000 of research incentive quasi endowment funding for start up costs for newly appointed endowed chairs.

The General Fund will receive additional funding from increased direct charges and 8% allocations from "E" funds totaling a minimum of \$86,123. These funds will be available for allocation in FY10.

In FY09 the Southeastern Conference signed a new television contract that will provide additional funding to the Department of Athletics. With these additional proceeds, Athletics will provide additional financial support for academic programs and other institutional needs. The University will receive \$1M annually for 15 years beginning in FY10. These funds will be used for scholarships including the Gamecock Guarantee, merit scholarships, Law Scholarships and stipends for the marching band and graduate assistant health insurance. In addition, one time funds totaling \$1M will be available for the first three years beginning in FY10. These funds will be used for scholarship and provide one-time support for service units.

APPENDIX 6
UNIVERSITY OF SOUTH CAROLINA
UNRESTRICTED NET ASSETS

The University's unrestricted net assets are assets with no external restriction as to use or purpose. They can be used for any purpose designated by the Board of Trustees, as distinguished from funds restricted externally for specific purposes. Unrestricted net assets result from accumulated excesses of revenue over expenses derived from University current fund operations. The University's unrestricted current funds are derived from state appropriations, student fees, institutional revenue and auxiliary operations that are not restricted for specific purposes. The unrestricted net assets are not all in a liquid form, like cash, but also include accounts receivable, pledges receivable, inventories and prepaid items among other classifications.

Unrestricted net assets include balances from operations of Education and General (E & G) activities, further defined below, auxiliary enterprises, quasi-endowments and unexpended plant funds. For the purposes of determining the unrestricted net assets from the USC annual operations, only Education and General funds should be used.

An auxiliary enterprise is an entity that exists primarily to furnish services to students, faculty and staff. Examples of auxiliary funds are the student health center, housing, parking, and athletics. By state law, auxiliary operations must cover their costs. Quasi-endowment funds are funds functioning as an endowment that are established by the institution from either donor or institutional funds, and will be retained and invested rather than expended. Since quasi-endowments are established by the institution rather than by an external source, the principal may be expended as designated by the Board of Trustees. Unexpended Plant Funds are used for the improvement or expansion of the physical facilities of the University. Expenditures may be for land and building acquisition, construction of new facilities, major rehabilitation, renovation, remodeling, and alteration of existing facilities; original equipment for new buildings and for expanded, remodeled, or altered parts of existing buildings; or general planning studies and surveys connected with the physical planning of the campus.

E & G funds are general operating funds and departmental funds which include:

A Funds – State appropriations, student tuition and fees (E&G portion), and campus-generated and other appropriated sources.

Departmental Funds are normally unit-generated involving Student Activities, Institutional Sales & Service, and unrestricted designated activities, gifts and scholarships.

D Funds – Student Activity Fees

E Funds – General Departmental (includes IDC recoveries from grants)

R Funds – Board of Trustees controlled funds from auxiliary funds

RP Funds – Departmental Private Gifts

Generally, the accumulation of unrestricted net assets is not a desirable goal in and of itself. The expectation is that the University will use its net assets to provide programs and services that will fulfill the goals and initiatives set forth by the University and annual budgeted operating revenues should equal budgeted expenses. According to the Association of Governing Boards

Strategic Finance publication, the university must operate in “financial equilibrium” meaning that the institution not only has a balanced budget, but that the “projected rate of change in revenue and expenses are approximately the same, endowment use is limited to preserve its long-term purchasing power, and that the annual operating budget is not balanced by deferring maintenance or other essential expenses, thereby creating hidden liabilities.”¹

In the course of annual operations, a limited amount of unrestricted net assets may be accumulated as reserves so that resources are available for emergencies that may arise. The unrestricted net assets should not be used to fund recurring operations; but, instead, are desirable to cover sudden shortfalls in revenue, unanticipated expenses, and extraordinary one-time investments. An excess of operating funds indicates the institution is meeting budgetary goals, but it does not show the relationship between the budget and the strategic plan. This surplus may be the result of a conscientious effort to retain a portion of operating revenue for use in future years.

Shortfalls in revenue may be the result of changes in enrollment or reductions of state funding. USC is largely dependent upon student tuition and fee revenue and must be able to endure an enrollment decrease that would take four or more years to recover. Further, increases in enrollment may require additional resources to strengthen faculty and student service offerings. Enrollment fluctuations are of particular concern to the USC system campuses. Enrollment management decisions weigh the multiple factors of class size, student quality, financial need and scholarships.

During the round of state appropriations reductions from 2001-2004, USC Columbia lost more than \$46M and the system campuses lost more than \$25M due to cuts. Although student tuition and fees were raised during the state’s economic downturn to maintain the Board of Trustees initiatives, budget reductions were spread across University units. Additional state appropriations cut were made to begin FY2009 and a mid-year cut has already been implemented for the year with additional expected should state tax collections not recover.

USC has experienced a significant increase in faculty hiring, both to replace retirements and to increase the total number of faculty serving students. Start up costs include renovating and upfitting labs and purchase of equipment, data and software. Uses of one time funds this year include faculty start up costs, academic support and student affairs programs and significant investment in security improvements.

The OneCarolina project is the University’s multi-year initiative to replace outdated administrative computing applications, including student information systems, finance, sponsored programs and human resources into one easily-accessible, web-based system. This process, once complete, will re-engineer and improve business practices on all eight campuses of the USC system. Through June 30, 2008 the University had \$28.7 of the anticipated \$75.1M budget. Planning for the expenditures associated with this system allows the University to avoid externally financing the project by accumulating funds over a period of years in advance.

In addition to weathering changes in enrollment and appropriations and planning for expected changes in expenditures, the University must plan in the operating budget costs not supported

¹ Kent John Chabotar, *Strategic Finance: Planning and Budgeting for Boards, Chief Executives, and Finance Officers* (Washington: Association of Governing Boards of Universities and Colleges, 2006), p71.

by the state including a portion of the pay package increase and associated increase in fringe benefits. Other expenditures are increases in the employer contribution for the state retirement system to cover the COLA adjustments, TERI payouts of annual leave, the increase in the sales tax, and the increase in the minimum wage. Although this type of inflationary increase must be covered with recurring dollars, the availability of reserves allows careful planning to ensure that the effect of these changes is not beyond the current capacity to cover these costs.

The amount of unrestricted net assets and the change from year to year has an impact on the financial ratio analysis conducted by the credit rating agencies to determine if the financial condition of the University is adequate to support the existing operation and changes brought about through capital financing. These assets allow the University the ability to control the timing of entering the bond market through use of short-term internal financing. In doing so, USC is able to secure more favorable interest rates and minimize the use of capitalized interest for long-term financing.

The interest on the investment of the E & G funds from the University's unrestricted net assets is a part of the State's general fund. The University earns interest on auxiliary funds, quasi-endowments and the unexpended plant funds.

The University is engaged in a continuous, cyclical process of planning and budgeting, not for one year, but for multiple years. Decisions concerning maintaining, building or depleting financial resources impact the budgets for several years. The USC unrestricted net assets are committed to BOT initiatives.

Since the 2003/2004 fiscal year, USC Columbia completes an annual budget using the concepts of "value centered management" in the development of "A" Fund operating budgets. This action was recommended by the Strategic Directions and Initiatives (SDI) Committee. Each year, the University's annual budget development process refines the initial assumptions by adapting the model so that the needs of the institution are met. Under this model all costs and income attributable to each academic unit are assigned to the unit. Costs include the unit's existing programmatic budgets, as well as its share of the operating funds needed to support the University's service functions. Income includes the unit's existing departmental revenues, summer school revenues, transfers, carry-forward balances, and the tuition revenue generated from the student credit hours taught by the unit. State appropriations were allocated to academic units upon creation and revision of the budget model. Service unit costs are assessed to academic units based on a formula and/or the application of direct charges. Formula based assessments resemble a tax and once determined are fixed and must be paid.

USC's Value Center Management is a form of Responsibility Centered Management that is intended to provide incentives for planning and cost effectiveness and revenue generation. Rather than a centralized budgeting model, VCM moves the budget decisions into each unit to provide local responsibility and authority presuming that those closest to the action make the best decisions. VCM provides academic units with the flexibility to match revenue streams with changing program needs and reduced the annual "use it or lose it mentality" by assuring the units that they would retain their funds for planned commitments.

The University does not have a policy requiring a minimum total reserves ratio based on total reserves as a percentage of prior year revenue. However, some institutions do have a policy requiring a set percentage retained. The amount of unrestricted net assets retained is one of the resource allocation decisions considered when balancing needs with available funds. Are

the funds sufficient, extensive or inadequate to cover planning and budgeting? The answer is not objective, but based on review of trends in revenues, expenditures, enrollment, and other financial/management metrics. Changes are addressed annually in the Management Discussion and Analysis that accompanies the financial statement. Based on total E & G expenditures for the USC Columbia campus in the 2007/2008 fiscal year, USC Columbia could cover 3 months of E & G expenditures.

APPENDIX 8**UNIVERSITY OF SOUTH CAROLINA
DELEGATION OF AUTHORITY TO THE ADMINISTRATION OF THE UNIVERSITY
FISCAL YEAR 2009-2010**

In approving this budget, the Board of Trustees recognizes that the amounts shown as revenue are estimates and are subject to changes, and that the amounts shown for expenditures are a reflection of plans and workload estimates as of the time the proposed budget was prepared. The Board further recognizes that each day may bring new challenges and developments requiring adjustments in plans, programs, estimates and budget items. To provide for continuity and essential flexibility in operations, the Board of Trustees reaffirms for Fiscal Year 2009-2010 the delegation of necessary authority to the President to act in all matters, and to the Vice President for Planning and Finance to act in fiscal, contractual and other business matters, including authority in the following areas:

- to negotiate and make timely changes in contracts;
- to approve transfer of revenue and expenditures of funds of the General Appropriation Act to be retained at the Institution;
- to adjust operating, permanent improvement and other income and expenditure items; and
- to take such other actions considered necessary in fiscal, contractual and other business matters in response to changing conditions and estimates.

The Chairman of the Board, the Fiscal Policy Committee, and the Executive Committee of the full Board are to be consulted for further specific directions and approval, as conditions appear to warrant.
