Archaeological Experience

Field School, Academic Research, and Relevant Work

- **Field School - Kampsville, Illinois - Center for American Archaeology**
 - July 26th-August 11th 2021.
 - Skills: In the field as well as in the lab. Such as in the field how to properly excavate, and close a unit. Some tasks included tagging artifacts, sketching and marking units, daily measuring of units, and taking and doing floats (flots). Then how to store, clean, and organize artifacts. Some tasks included washing artifacts, cataloging, weighing, and describing them on paper for filing.
- **Master's Thesis - Present**
 - Currently beginning my master's thesis on mourning adornment housed in the Charleston Museum.
 - Questions of interest: What could mourning adornment tell about a person's identity in colonial America? What materials and styles are the most common in the charleston area and why? What can that tell us about the people living there at this time?
- **Senior Seminar - Fall 2021**
 - Briscoe Collection Pottery Analysis: A Focus and Analysis on Decorated Unanalyzed Pieces from the UMM Collection and Analyzed Pieces from the MSU Collection. **Currently being edited for publication**
 - Skills: Working independently and learning midwestern pottery analysis.

- **Graduate Instructional Assistant- Present**
 - Teach lab classes for Introduction to Biological Anthropology at USC.
 - Skills: Leading a classroom, time management, problem-solving, Blackboard software.
- **Stevens County Historical Society- Fall 2018**
 - Work study position through the local historical society.
 - Skills: Briefly working with physical copies of newspapers to catalog into an online system. Worked with first putting their collection on paper. This included weighing, measuring, and describing artifacts. Then adding it to their online system.
